**Narrative**

Continuations:  
 Daniel Garcia is the decedent.  
 [REDACTED]

Narrative:  
 On 09-02-19, at approximately 0516 hours, the Santa Barbara Sheriff's Office was notified by the Ventura Fire Department of a vessel on fire in the Channel Islands off the coast of Santa Barbara County. The Coast Guard responded along with Ventura Fire Department and Santa Barbara County Fire Department. Upon arrival at the scene the vessel was found to be fully engulfed in fire. The call had originally come into the Coast Guard at 0332 hours, on 09-02-19.  
 Reports to the Coast Guard said there were possibly be 34 subjects trapped below the water line, in the vessel. The vessel was identified as the "Conception" and it was in jurisdiction of the Santa Barbara Sheriff's Office near Santa Cruz Island, not in Ventura Sheriff's Department jurisdiction. The location was later found to be 300 yards offshore of Platts Harbor on Santa Cruz Island. See Santa Barbara County Sheriff's Department case number 19-11415 for full details.

ORIG

**Narrative**

Sgt. Morris was notified of the incident by Sergeant Valencia. Sergeant Morris requested the response of Detective Henslin, Detective Biedinger, and Detective Carlson to the Coroner's Bureau to assist in the incident at approximately 0525 hours.

Detective Baisa was also called at that time and asked to respond to Ventura Harbor to act as the liaison for the Sheriff's Office.

It was later found the vessel, the "Conception" contained 33 passengers and six crew members. Five of the crew members were rescued, but none of the 33 passengers had been found.

During the course of the morning four deceased passengers had been located by Coast Guard personnel. The Coast Guard transported the decedents to the Santa Barbara Harbor.

At 1150 hours, on 09-02-19, Sgt. Morris, Detective Henslin and Detective Biedinger responded to the Santa Barbara Harbor to retrieve decedents documented as 1 through 4.

At 1220 hours, on 09-02-19, the decedents were brought to Santa Barbara Harbor. Detective Henslin and Detective Biedinger transported two decedent's each to the Santa Barbara Coroner's Bureau, where physical examinations were later conducted on them.

At that time digital photographs were taken of the decedents along with samples collected for DNA analysis identification and for an expanded toxicology panel. All of the decedents retrieved on 09-02-19, were found to have significant thermal burns to their bodies with limbs missing due to the intensity of the fire. None of the decedents could be identified by physical characteristics.

At 2030 hours, on 09-02-19, Sgt Morris, Det. Biedinger, Det. Henslin, Det. Carlson, Det. Baisa, Deputy Bruening and staff from the Los Angeles County Coroner's Office responded to the Santa Barbara Harbor for retrieval of 16 additional bodies recovered from the Conception, documented as decedents 5 through 20.

The decedents were then transported to Coroner's Bureau for examinations, drawing of fluids for toxicology and DNA analysis, and collection of personal property.

At approximately 2330 hours, on 09-02-19, all the examinations of the decedents were completed and the decedents were placed in a portable morgue provided by the Los Angeles County Coroner's Office.

On 09-03-19, at 1930 hours, Sgt Morris, Det. Biedinger, Det. Henslin, Det. Carlson, Det. Baisa, Deputy Bruening and staff from the Los Angeles County Coroner's Office responded to the Santa Barbara Harbor for retrieval of 13 more remains recovered from the Conception, documented as decedents 21 through 33.

The decedents were then all transported to the Santa Barbara Coroner's Bureau, where physical examinations, digital photographs, and fluid samples for DNA analysis and toxicology were conducted on each recovered decedent.

All of the decedents recovered on 09-03-19 were placed on portable coroner racks and secured in the Santa Barbara Coroner's Bureau morgue.

On 09-09-19, at approximately 1400 hours, Pathologist Dr. Manny Montez, Detective Henslin, Detective Baisa, and Sgt. Morris, along with representatives from the FBI and ATF performed tracheal examinations of the remaining decedents at the Coroner's Bureau.

On 09-10-19, at approximately 1830 hours, Detective Baisa met with Santa Barbara Sheriff's Department Sgt. Nelson, the National Park Service, 1901 Spinnaker Drive in Ventura, Ca. Sgt. Nelson provided Detective Baisa with a bag of suspected human flesh, a backpack and an air vent from the Conception that had suspected human hair embedded in it. The suspected human tissue and other items were found in the bow of the Conception.

The items later numbered 35 and 36 were transported to the Santa Barbara Coroner's Bureau where digital photographs were taken of the suspected human tissue and suspected human hair, which was removed from the metal air vent.

Three suspected human tissue and hair were later flown to the Sacramento County Coroner's Office in Sacramento,

**Narrative**

Ca., under the care of Sgt. Morris and Deputy Bruening for DNA analysis.

At approximately 1330 hours, on 09-11-19, Detective Henslin and Detective Biedinger responded to Santa Barbara Harbor, after Divers from the Los Angeles Police Department located the remains of a decedent, near the location of the Conception fire. The Los Angeles Police Department collected the remains, with a section of hair, documented as numbers 37 and 38.

The decedent and the remains were then transported to the Santa Barbara Coroner's Bureau, where a physical examination, digital photographs, and fluid samples for DNA analysis and toxicology were conducted on the recovered decedent.

The sample of collected hair was packaged and sent along the DNA samples of decedent number 37 for DNA analysis in Sacramento California, under the care of Detective Henslin, who flew to the Sacramento Airport and provided the samples to Sgt. Morris who was still in Sacramento.

The samples were then taken to the Sacramento County Coroner's Office, for DNA analysis.

**Physical evidence:**

A series of digital photographs were taken of the decedent at the Coroner's Bureau by Forensic Personnel from the Santa Barbara Sheriff's Department. The photo card was later downloaded for storage at the Coroner's Bureau.

**Identification of decedent:**

The decedent was positively identified by a DNA comparison, with samples submitted by [REDACTED] the [REDACTED]. The DNA comparison was conducted via the Sacramento County Coroner's Office.

The decedent was also identified by the FBI Disaster Victim Identification Squad using fingerprints.

**Examination of decedent:**

The decedent was received at the Coroner's Bureau inside two black body bags. The decedent was lying on his back and appeared to be unclothed. All exposed bones on the decedent were discolored and charred, indicating exposure to intense fire for different periods of time.

**Head:**

Severe charring and skin splits was visible upon the skull, face and neck.  
The decedent facial features were distorted due to fire damage.  
The top of the skull was visible and appear to be charred due fire intensity.  
Foam was noted emitting from the decedent's mouth.

**Torso:**

Severe burns, charring and skin splits were visible upon the torso of the decedent.  
A massive skin split was visible upon the right side of the torso which caused the decedent's internal organs to protrude outward.  
A large horizontal skin split with severe charring was noted to the left side of the torso, exposing the under lying muscle fibers.

**Arms:**

The left arm was positioned upwards at the shoulder with the lower arm bent at the elbow towards the head.  
Severe skin splits and burns were noted from the hands to the shoulder area.  
The decedent's hands were in a "ball" shape due to severe thermal burns.  
The left arm was missing the forearm and hand.

**Legs:**

The left leg sustained severe skin splits and thermal burns, exposing the under lying muscle and fatty tissue.  
The right leg sustained burns and charring from the upper part of the leg to the foot.

**Back:**

A large horizontal skin split was noted along the lower back area.  
Severe charring and burns were visible upon the entire back area.

ORIG

**Narrative**

Post mortem examination:

Due to the severity of the decedent's thermal injuries, along with the circumstances regarding the incident, regarding the vessel he was on becoming ignited, a post mortem examination was deferred. During the course of this examination, Dr. Montez conducted a tracheal exam to determine the presence of soot in the decedent's airway. During the examination of *Daniel Garcia*, soot was present in his airway.

Statements:

I made telephone contact with the decedent's father regarding the incident and the Coroner's Role in the investigation into the cause and manner of death for the decedent. I provided him with contact information regarding the fire investigation part of the incident. The decedent's father eventually made funeral arrangements with Harris Funeral Home.

Once the decedent's death certificate was completed, I again contacted the decedent's father to explain the death certificate and answer any questions they had.

Forensic toxicology:

On 09/02/19, toxicology samples were obtained from the decedent to include two vials of femoral blood. One vial of femoral blood was submitted to Alere Forensics for testing. The remaining vial was retained at the Coroner's Bureau pending the need for further testing.

On 09/12/19, a toxicology report was received from Alere Forensics regarding the decedent's carbon monoxide saturation. The report indicated the following:

Carbon monoxide                      57 % saturation

On 09/13/19, a toxicology report was received from Alere Forensics regarding the decedent's cyanide saturation. The report indicated the following:

<1 mcg/ml

On 09/28/19, a toxicology report was received from Alere Forensics regarding the decedent. The report indicated the following:

Positive findings:  
None detected

Copies of these reports was reviewed with Dr. Manny Montez and found the Carbon Monoxide to be contributive to the decedent's death. The other toxicology results were non-contributory to the decedent's death.

Consultation with Forensic Pathologist:

I reviewed the circumstance surrounding this death with Dr. Manny Montez. Dr. Montez opined that the decedent died as a result of SMOKE INHALATION due to BOAT FIRE.

In review of the circumstances of this death:

On 09-02-19, at approximately 0443 hours, 46-year-old, Daniel Garcia died from smoke inhalation when the vessel he was on, for a diving expedition, caught fire.

Cause of Death:

It was determined that the decedent (*Daniel Garcia*) died as a result of the following cause;

**SMOKE INHALATION (Mins)**

Due to:

**BOAT FIRE (Mins)**

With other significant conditions:

None

Manner of death:

|                                   |                                |             |
