**Narrative**

**Continuations:**

Sanjeeri Deopujari is the decedent.

**Narrative:**

On 09-02-19, at approximately 0516 hours, the Santa Barbara Sheriff's Office was notified by the Ventura Fire Department of a vessel on fire in the Channel Islands off the coast of Santa Barbara County. The Coast Guard responded along with Ventura Fire Department and Santa Barbara County Fire Department. Upon arrival at the scene the vessel was found to be fully engulfed in fire. The call had originally come into the Coast Guard at 0332 hours, on 09-02-19.

Reports to the Coast Guard said there were possibly be 34 subjects trapped below the water line, in the vessel.

The vessel was identified as the "Conception" and it was in jurisdiction of the Santa Barbara Sheriff's Office near Santa Cruz Island, not in Ventura Sheriff's Department jurisdiction. The location was later found to be 300 yards offshore of Platts Harbor on Santa Cruz Island. See Santa Barbara County Sheriff's Department case number 19-11415 for full details.

Detective Morris was notified of the incident by Sergeant Valencia. Sergeant Morris requested the response of Detective Henslin, Detective Biedinger, and Detective Carlson to the Coroner's Bureau to assist in the incident at approximately 0525 hours.

Detective Baisa was also called at that time and asked to respond to Ventura Harbor to act as the liaison for the

**Narrative**

Sheriff's Office.

It was later found the vessel, the "Conception" contained 33 passengers and six crew members. Five of the crew members were rescued, but none of the 33 passengers had been found.

During the course of the morning four deceased passengers had been located by Coast Guard personnel. The Coast Guard transported the decedents to the Santa Barbara Harbor.

At 1150 hours, on 09-02-19, Sgt. Morris, Detective Henslin and Detective Biedinger responded to the Santa Barbara Harbor to retrieve decedents documented as 1 through 4.

At 1220 hours, on 09-02-19, the decedents were brought to Santa Barbara Harbor. Detective Henslin and Detective Biedinger transported two decedent's each to the Santa Barbara Coroner's Bureau, where physical examinations were later conducted on them.

At that time digital photographs were taken of the decedents along with samples collected for DNA analysis identification and for an expanded toxicology panel. All of the decedents retrieved on 09-02-19, were found to have significant thermal burns to their bodies with limbs missing due to the intensity of the fire. None of the decedents could be identified by physical characteristics.

At 2030 hours, on 09-02-19, Sgt Morris, Det. Biedinger, Det. Henslin, Det. Carlson, Det. Baisa, Deputy Bruening and staff from the Los Angeles County Coroner's Office responded to the Santa Barbara Harbor for retrieval of 16 additional bodies recovered from the Conception, documented as decedents 5 through 20.

The decedents were then transported to Coroner's Bureau for examinations, drawing of fluids for toxicology and DNA analysis, and collection of personal property.

At approximately 2330 hours, on 09-02-19, all the examinations of the decedents were completed and the decedents were placed in a portable morgue provided by the Los Angeles County Coroner's Office.

On 09-03-19, at 1930 hours, Sgt Morris, Det. Biedinger, Det. Henslin, Det. Carlson, Det. Baisa, Deputy Bruening and staff from the Los Angeles County Coroner's Office responded to the Santa Barbara Harbor for retrieval of 13 more remains recovered from the Conception, documented as decedents 21 through 33.

The decedents were then all transported to the Santa Barbara Coroner's Bureau, where physical examinations, digital photographs, and fluid samples for DNA analysis and toxicology were conducted on each recovered decedent.

All of the decedents recovered on 09-03-19 were placed on portable coroner racks and secured in the Santa Barbara Coroner's Bureau morgue.

On 09-09-19, at approximately 1400 hours, Pathologist Dr. Manny Montez, Detective Henslin, Detective Baisa, and Sgt. Morris, along with representatives from the FBI and ATF performed tracheal examinations of the remaining decedents at the Coroner's Bureau.

On 09-10-19, at approximately 1830 hours, Detective Baisa met with Santa Barbara Sheriff's Department Sgt. Nelson, at the National Park Service, 1901 Spinnaker Drive in Ventura, Ca. Sgt. Nelson provided Detective Baisa with a bag of suspected human flesh, a backpack and an air vent from the Conception that had suspected human hair embedded in it. The suspected human tissue and other items were found in the bow of the Conception.

Two items later numbered 35 and 36 were transported to the Santa Barbara Coroner's Bureau where digital photographs were taken of the suspected human tissue and suspected human hair, which was removed from the vessel air vent.

The suspected human tissue and hair were later flown to the Sacramento County Coroner's Office in Sacramento, Ca., under the care of Sgt. Morris and Deputy Bruening for DNA analysis.

On approximately 1330 hours, on 09-11-19, Detective Henslin and Detective Biedinger responded to Santa Barbara Harbor, after Divers from the Los Angeles Police Department located the remains of a decedent, near the location of the Conception fire. The Los Angeles Police Department collected the remains, with a section of hair,

**Narrative**

documented as numbers 37 and 38.

The decedent and the remains were then transported to the Santa Barbara Coroner's Bureau, where a physical examination, digital photographs, and fluid samples for DNA analysis and toxicology were conducted on the recovered decedent.

The sample of collected hair was packaged and sent along the DNA samples of decedent number 37 for DNA analysis in Sacramento California, under the care of Detective Henslin, who flew to the Sacramento Airport and provided the samples to Sgt. Morris who was still in Sacramento.

The samples were then taken to the Sacramento County Coroner's Office, for DNA analysis.

**Physical evidence:**

A series of digital photographs were taken of the decedent at the Coroner's Bureau by Forensic Personnel from the Santa Barbara Sheriff's Department. The photo card was later downloaded for storage at the Coroner's Bureau.

**Identification of decedent:**

The decedent was positively identified by a DNA comparison, with samples submitted by the decedent's biological father, [REDACTED]. The DNA comparison was conducted via the Sacramento County Coroner's Office.

**Physical evidence:**

A series of digital photographs were taken of the decedent at the Coroner's Bureau by Forensic Personnel from the Santa Barbara Sheriff's Department. The photo card was later downloaded for storage at the Coroner's Bureau.

**Examination of decedent:**

On 9-3-19, at approximately 2102 hours, an examination of the decedent was conducted at the Coroner's Bureau.

The decedent was received on her left side within a black colored body bag. The decedent's arms, hands and legs assumed a pugilistic posture. A tag with case #19-11445 was attached to the body bag.

The decedent was a well-developed female with dark colored hair. The decedent was not identifiable due to extensive and severe postmortem thermal injuries. She was clothed in a burgundy colored t-shirt, grey yoga style pants, and sandals. Severe 4th degree thermal burns were present throughout.

The head displayed extensive charring. The top, and majority, of the head displayed extensive 4th degree burns with charring through the bone. Remnants of long black hair were attached to the lower portion of the head. A necklace was removed from around the neck. A pair of earrings were removed from the ears.

The chest and abdomen displayed 4th degree burns with charring to the skin. Fatty tissue was exposed along the right side.

The legs and feet displayed extensive 3rd and 4th degree burns. The feet were charred.

The arms and hands displayed extensive 4th degree burns that charred through the skin. The wrists and hands were charred through to the bone.

The rear of the body was examined. The posterior aspects of the body displayed extensive 4th degree. The back was blackened. There were no indications of a struggle or defensive wounds to the decedent, specifically the hands, arms, and chest.

Samples of bodily fluids were obtained from the decedent to include 2 tubes of femoral blood (including one for NA).

A tube of femoral blood was submitted to Alere Forensics for toxicology analysis. The remaining fluid sample was refrigerated at the Coroner's Bureau pending a need for toxicology analysis.

**Post mortem examination:**

Due to the severity of the decedent's thermal injuries and obvious traumatic injuries, along with the circumstances regarding the incident, regarding the vessel she was on becoming ignited, a post mortem examination was

**Narrative**

deferred.

**Forensic toxicology:**

On 9-15-19, a toxicology report was received from Alere Forensics regarding the decedent's carbon monoxide saturation. The report indicated the following:

Carbon monoxide                      58%

On 9-15-19, a toxicology report was received from Alere Forensics regarding the decedent's cyanide saturation. The report indicated the following:

Cyanide    Not detected

On 9-28-19, a toxicology report was received from Alere Forensics regarding a toxicology screen. The report indicated the following:

Beta-Phenethylamine	Positive
Amphetamine	Not detected
Methylenedioxyamphetamine (MDA)	Not detected
Basic Drug Screen	None detected
Volatiles (Etoh, IPA, MeOH, Acetone)	Not detected

The reports were reviewed with Dr. Manny Montez and the carbon monoxide level was found to be contributive to the decedent's death.

**Consultations with Forensic Pathologist:**

I reviewed the circumstance surrounding this death with Dr. Manny Montez. Dr. Montez opined that the decedent died as a result of smoke inhalation due to boat fire.

**In review of the circumstances of this death:**

On 09-02-19, at approximately 0443 hours, 31-year-old, Sanjeeri Deopujari died from traumatic injuries sustained when the vessel she was on, for a diving expedition, caught fire.

**Cause of Death:**

It was determined that the decedent (DEOPUJARI) died as a result of the following cause;

**SMOKE INHALATION    (MINS)**

Due to:

**BOAT FIRE                      (MINS)**

**Manner of death:**

The manner of death will be certified by the Office of the Coroner as **ACCIDENTAL**.

**Final Disposition:**

The decedent was released to representatives of Mcdermott-Crockett & Associates Mortuary of Santa Barbara, Ca. The decedent's property was released to representatives from the Federal Bureau of Investigations (FBI).

**Case closed**

This report contains information pertaining to the trachea photo-documentation of female decedent #27 on Monday, 09/09/19, in Case#: 19-11445.

**Narrative**

**E-FILE ATTACHMENTS:**

None

**NARRATIVE:**

On Monday, 09/09/19, Coroner's Sgt. Jarrett Morris requested additional Forensic assistance with photo-documentation in the mass casualty that had occurred in Santa Cruz Island on 09/02/19.

**PHOTO DOCUMENTATION (Body #27, female):**

On Monday, 09/09/19, the Forensics Unit assisted Coroner's Detectives with photo-documenting the tracheas of the recovered bodies. The examination was conducted by SBSO Dr. M. Montez.

I assisted by taking digital photographs of the tracheal examination conducted on female decedent #27. Photo-documentation began at 1444 hrs and was completed at 1449 hrs on Monday, 09/09/19.

A total of 9 digital photographs were later uploaded into the Forensic Unit's digital imaging computer under Case#: 19-11445 for future reference.

**Summary Narrative**

Photo-documentation of Decedent #27.

**Narrative**

**E-FILE ATTACHMENTS:**

None

**NARRATIVE:**

At 0100 hours on Tuesday, 09/03/19, (prior to our departure from the Santa Barbara office) Forensic Supervisor Nancy Fabela advised CSI Technician Amezola and I return to the Santa Barbara office at 1200 hours.

At 1700 hours on Tuesday, 09/03/19, Forensic Supervisor Nancy Fabela advised CSI Technician Amezola that additional recovered bodies would be arriving at the Santa Barbara Coroner's Office between 2130 and 2200 hours.

At 2015 hours on Tuesday, 09/03/19, Forensic Supervisor Fabela advised the recovered bodies were enroute to the Coroner's Office.

Forensic Supervisor Fabela, CSI Technician Amezola, CSI Technician Avalos and I gathered our equipment and left the Santa Barbara station at 2015 hours.

**WALK THROUGH:**

CSI Technician Amezola and I arrived at the Santa Barbara Coroner's Office at 2025 hours and met with Forensic Supervisor Fabela, CSI Technician Avalos and Sergeant Mike McCoy. The 12 recovered bodies were already at the Coroner's Office. The Coroner's Bureau Detectives, Doctor Manny Montez, and the Los Angeles Coroner's Bureau were present as well.

**PHOTO-DOCUMENTATION :**

At 2102 hours, on Tuesday 09/03/19, I took overall photographs of Decedent #27. The body was in a body bag with a Santa Barbara County Sheriff's Coroner tag #27 hanging from the zipper. The decedent was badly burned wearing a maroon colored shirt, red bra, grey colored 'Express' leggings, and sandals. I then photographed her inclothed.

Photo-documentation was completed at 2113 hours on 09/03/19. All of the photographs were later uploaded to the Santa Barbara Forensic Unit's digital evidence hard drive under 19-11445 for future reference.

**FINAL WALK-THROUGH:**

Forensic Supervisor Fabela, CSI Technician Amezola, CSI Technician Avalos, and I gathered our equipment and left the Coroner's Office at 2202 hours, on Tuesday 09/03/19.
